## OUTLINE

---

# What to expect over 2 days

This is a comprehensive course covering all aspects of educating gifted and talented students, including:

### DAY ONE –

- What do we mean by gifted and talented and what are the characteristics of these students?
- How GAT students are selected and the impact of this on GAT classes and teaching strategies.
- Underachievement (including twice-exceptional) and strategies to identify and manage this.

### DAY TWO –

- Designing challenging learning experiences for gifted and talented students, including questioning, differentiation, high order thinking, and assessment (pre, formative and off-level).
- Designing program options for gifted and talented students, including grouping, acceleration options, and compacting, mentoring and alternative options.

“

*“We have now had 50 of our teachers from eight learning areas over two years work through the two day Gifted and Talented workshop with Kylie. This has been pivotal in our priority to ensure that our approach is whole-school in focus. The feedback has been all positive. Kylie’s engaging style of delivering the strategies and content for working effectively with gifted and talented students is highly appealing to teachers. Our teachers reported that the opportunity to hear current and relevant information interwoven with opportunity for discussion with other teachers was invaluable. An increase in teacher confidence to try differentiated programs and assessment with all students has been a welcome added extra.”*

- Tracy Griffiths, Associate Principal  
(Carine Senior High School, Nov 2020)
